

## CITY OF WEST PALM BEACH BICYCLE RACK PLACEMENT REQUIREMENTS AND CONSIDERATIONS:

- *Racks are hitch style accommodating two bicycles per rack.*
- *Racks are installed in public space within the City of West Palm Beach limits in the downtown and Northwood Village areas usually on a sidewalk with 6 or more feet of clear sidewalk space remaining.*
- *Racks are placed at convenient, usable locations in close proximity to building entrances without impeding pedestrians.*
- *Racks are placed with adequate clearance from curb ramps and crosswalks, street furniture, driveways, and parked cars.*
- *City owned property. (Bicycle racks installed on private property are usually paid for by the property owner.)*
- *Concrete sidewalk width wide enough not to impede pedestrian traffic.*
- *Racks can not be installed on pavers, cobblestone or metal grating.*
